Quick Install Guide
With Ring, you’re always home.
**WI-FI SETUP**

Download the Ring app from the App Store, Google Play or Windows Store. Open the Ring app and select Setup Device. Follow the in-app instructions to set up your Ring. You will need your network information (SSID and password) to complete your Ring setup.

**INSTALLATION**

1. Remove doorbell button and power off your transformer (for wired installation only).
2. Line up the mounting bracket using the provided mounting level.
4. Install the mounting bracket using the provided screwdriver bit, handle and drill bit.
   - Brick - use provided screws and anchors
   - Concrete - use provided screws and anchors
   - Stucco - use provided screws and anchors
   - Wood - use provided screws
   - Vinyl - use provided screws
5. Remove the mounting level.
6. Connect your doorbell wiring to the terminal screws located on the mounting bracket (for wired installation only).
7. Place the device on the mounting bracket.
8. Tighten the security screws at the bottom of the device using the proprietary screwdriver bit. Please do not over-tighten the security screws.
9. Provide power back to your transformer (for wired installation only).

**HARDWIRING REQUIREMENTS**

If powering off doorbell wiring, the wiring must be connected to a transformer and a doorbell with a voltage of 8VAC - 24VAC to ring your doorbell chime.

**LED RING LIGHTING SEQUENCES**

- **Battery Charging**
  - LED Ring spins blue, then white.
- **Battery Charging Complete**
